GAIL M. GRABILL

I do appreciate and thank you for the opportunity to write a few words for your 1958 SPOTLIGHT.

This year will complete twelve years of formal education for many of you. Others will seek further education. Regardless of your choice, I feel that the progress you have made over the past twelve years will be an aid to the many problems you will face.

Remember, we have not promised you an answer to all problems, but the foundation for solving them to meet your personal needs.

I personally want to congratulate each of you and wish you continued success in your chosen future.

My Best Regards,  
G. M. GRABILL, Superintendent

Members of the Class of '58, - I wish each of you success.

I urge you to:

1. Use the ability that is yours.
2. Become intensely interested in the work you do.
3. Form habits of quality workmanship.  
AND
4. Do more than is required of you.

# CLASS PROPHECY

April 30, 1968, the long awaited day for the class of '58 reunion. A delightful time will be had by all in the home of Mr. and Mrs. Jay Sheets, the Mrs. formerly being Barbara Hirsch.

Terry King has decided to remain a bachelor and is foreman of Jay's Bar-B-Q, Cottage, Cream, Mouse, and Brick, Cheese Ranch on the moon. Of course, these kinds of cheeses are green. Jay and Barbara invited Marabelle Wolfe, an FBI agent, to the Ranch a week before the reunion to help get the place ready, because the four of them are Hosts and Hostesses for the occasion.

When the rising of dust and a hearty "Hello" was seen and heard by all of us, we ran to the door to see who was causing the disturbance. Much to our surprise Bill Von Gunten came hopping up to the door on his latest invention; a foot long pogo stick with a small spring on it, because the ability to jump high on the moon is increased. Bill is a plasterer by profession, but is always inventing things in his spare time. He admits he is lonely in his bachelorhood and is looking for a healthy, wealthy woman to care for him.

Kerry Kam Kelsey and Bambie Beisler were next to arrive. Kerry and Bambie better known to us as Mary Ann Kelsey and Barbara Geisler, are very well known movie actresses in California. The young ladies' transportation was furnished by "Edsel Co.'s" space department.

Speaking of the Edsel Co! Guess who is president of the firm. Of course, our own classmate Don Colter. Don is doing quite well for himself these days. It's really necessary for him to have such a high income because of the set of quintuplets (all boys) two years old and three girls ages eight, six, and four. He and his wife, the former Katherine Hirsch, are proud to be the parents of such a fine assortment.

While everyone was discussing "old times," in walked Janice Smith and with her casual way started renewing old acquaintances. It seems as though Janice has been quite busy with her job as Editor-in-Chief for the Bobo Gazette. Too busy, her classmates think, because she has let the men alone.

Next to arrive were Emmitt Hawkins and Larry Brunner. Emmitt and Larry are playing as guards for the Fort Wayne, Indiana, Earth, Pistons. In spite of handicaps, both boys have helped the Pistons tremendously during the past season.

Above all of the noise in the house a great whirling was heard. Out through the windows everyone could see an odd looking imitation of a helicopter. Away we all ran to see who was there and much to our surprise David Rash and Dick Johnson jumped down to greet us. It seems as though Dick and David are performing experiments up here on the moon, thus explaining the imitation helicopter.

Hup two, three, four!! Hup two, three, four!! "What on moon was all that for!" Everyone seemed to exclaim together. The entire group was flabbergasted to see Dixie Gamer Hurst leading her five girls into the house. Dixie's girls have a bright future ahead if they can keep in tune with the music as their mother did in her days.

Morris Colter and Wendell Kelley were doing a performance at a circus in a town nearby last night. Morris and Wendell have the latest in motorcycles and have joined the "Lippy Loopy" motorcycle magicians. Soon they came and more exciting adventures were heard by all.

Following the arrival of the motorcyclists came a gigantic "thing" with Gary Shoaf operating the controls. Gary is the president of the Air Ship Co. on earth. He and his workers are competing with the Edsel Co. in outer space transportation which explains the "thing." Gary is going to pack everybody up in his ship and go sightseeing after dinner.

Last, but not least, to be seen landing in the corral was a man-operated ICBM belonging to the Armed Forces of the United States. Kay Bollenbacher, who is an Army nurse, and her husband, who is a Five Star General at the age of thirty-four, hopped out of the two passenger missile. They really looked a sight in their space suits. Kay later told us that she and her husband had just gotten their passes at 8:00 A.M. earth time and thought that it would be impossible for them to reach the ranch in time for dinner, so the Army gave them the use of the missile for the day.

The reunion is in full swing now and if our plans for the future work out, we'll see you on Mars in 1978.
